ARLGL174U1

Speed. Range. Wi-Fi without limits

Overview

The Nyx2600-AC is the new generation of Dual-Band Wireless AC Routers to join the Nexxt Solutions family. Transmission speeds up to 2600Mbps, 1733Mbps using the 5.0GHz band and 800Mbps on the 2.4GHz band, makes this an ideal solution for whole HD coverage for multiple devices across your home or office network. This router supports WDS bridge so it can work as an access point and wireless repeater at the same time. Incorporated bandwidth control prioritizes traffic to bandwidth intensive applications, like HD video streaming, online gaming, large file transfer or seamless surfing. Guest networks can be conveniently setup in order to segment and protect your personal network. Th Nyx2600-AC is the router to keep up with modern day demands of a smart and fully connected environment.
