AW220NXT25

Max. width 449.58mm
Computer with tray mounted upside down
(A rack space is lost).

Max. width 415.92mm
Small computer with tray mounted right side up.

Nexxt Solutions offers a variety of shelves to meet all of your cabinet and rack mounting needs. Our 19-inch black steel rack mount shelves are compatible with most EIA standard racks. These easy-to-install shelves fit all components from up to 18.85-inch wide. Heavy-duty 16-gauge steel construction and black powder coat finish for lasting strength and durability. Our rack shelves are designed to support a variety of electronic devices and heavy equipment. The slide rails extend fully to 28 inches on this standard shelf model. Cable management is a standard feature in this model, providing a professional method to route and secure the cables. It includes a removable, front equipment stop bar, and an adjustable, rear equipment stop bar for securing equipment for transport or seismic applications. For indoor use only, in environmentally controlled areas, may not be used outdoors, in industrial or harsh environments or in plenum spaces. The sliding shelf is designed for nonrack-mountable equipment as servers, desktops, workstations and peripheral devices. The shelves can be attached to any rack hole (2 positions per U space). Fits square, round, threaded holes. Each unit is individually boxed.

- Sliding adjustable 4 point shelf – Our sliding shelf is a great product for non-rack-mountable equipment as servers, desktops, workstations and peripheral devices.
- Fits any 4-post rack and server rack.
- Fits square, round, threaded holes.
- Each unit can hold up to 95lb.
- Suitable for equipment up to 28-inch deep.
- Adjustable mounting depth: 17.5in - 28in.
- High quality, ball bearing slides
