

Handheld termination aid

Our handheld termination aid reduces the effort required for wiring terminations by preventing modules or plugs from slipping off your hand or work surface prior to termination. This termination aid is designed for keystone jacks, 110 Type.

Instructions

1. Put the keystone jack into the handheld holder following the correct position
2. Place the Twisted Pair Cable into the cable guide
3. Connect the wires on the IDC block
4. Use the Impact punch down tool to finish the termination
