Advanced security data encryption

Laptop/PC ready Plug and Play

Single band 2.4GHz

Instantly update your PC or laptop to Wi-Fi technology

Product overview

The freedom of setting up a network wirelessly in your home or office is now possible with the **Mini-USB Wi-Fi adapter**. By adopting the wireless-N technology, this compact adapter is capable of delivering reliable high-speed connectivity along with enhanced performance in high-bandwidth applications. Its hassle-free installation will get you connected to your network in minutes.

Highlights

- **Wireless-N technology**
  Delivers transmission speeds of up to 150Mbps, three times faster than the 802.11g standard
- **Wireless protocols**
  Complies with the 802.11N standard and it is backward compatible with previous G and B devices
- **Superior coverage**
  Integrated 2dBi antenna
- **Auto-negotiation capability**
  Detects wireless networks and selects the optimal transmission rate automatically
- **Miniature design**
  This sleek nano adapter is so small that won´t block other USB ports when left connected to a desktop or laptop computer
- **Advanced security**
  Features WPA-PSK/WPA2-PSK, WPA/WPA2 and WEP encryption methods
- **System compatibility**
  Supports Windows and MAC OS platforms
