Your home in **one app**

## The intelligent way to track all the metrics that matter in just one step

Nexxt Solutions introduces its new **Smart Home Automation Series**. Designed to suit your mobile lifestyle while building a safe environment inside and out of your home, the brand seamlessly unifies into one user-friendly application a comprehensive line of fully integrated devices. From smart plugs, pet feeders, bulbs and cameras to security kits, you can now take control, schedule and run your own home devices, on your own schedule even when you are not there.

As health and fitness become increasingly connected, more and more smart devices are making their way into our homes, being the Smart Wi-Fi scale one of the latest innovations the brand has added to its Home Automation line. This new generation of body scales can do much more than just show your weight. They provide you with a more complete picture of your body, track your weight over time, help you with weight loss and measures the percentage of fat and muscle mass you have, among other metrics. When you start using the smart bathroom scale, your weight is automatically logged every time you step on. And to keep thing simple for you, our free app is quick and simple to use. It supports up to 10 user profiles, so members of your family will be delighted to join in to get and stay healthy too!

## Highlights

• The smart scale is designed to measure essential body metrics:

- Weight
- Body Mass Index (BMI)
- Body fat percentage
- Skeletal muscle mass
- Bone mass
- Water percentage
- Protein
- Basal metabolism

- Track your progress accurately and effortlessly using your phone with a simple touch
- The Next Home app keeps a record of your weight and body composition metrics, so you can access them at any time
- All your stats are seamlessly synched through the app, allowing you to view them directly on your smart device
- The bright LCD display turns on automatically every time you step on the scale
- Set weight loss goals and graph your progress
- Add up to 10 user profiles
- Durable tempered glass platform, with a weight capacity of up to 396lb

## Technical specifications

<b>MPN</b>	NHA-S130
<b>General</b>	
Screen size	2.5x2.3in
Type of display	Digital LCD
Reset unit button	Yes
Unit of measurement	Kilogram / Stone/ Pound
Number of users	Recognizes up to 10 different profiles
Accessibility requirements	New users must set up a Nexxt Home Account through the Nexxt Home App
Metric readings	<ul style="list-style-type: none"><li>- Weight</li><li>- Body Mass Index (BMI)</li><li>- Body fat percentage</li><li>- Skeletal muscle mass</li><li>- Bone mass</li><li>- Water percentage</li><li>- Protein</li><li>- Basal metabolism</li></ul>
<b>Power</b>	
Input voltage	4.5VDC
Battery type	Three AAA alkaline batteries (not included)
Battery life	Approximately 3 months*
<b>Physical characteristics</b>	
Dimensions	11.8x11.8x1.10in
Color	White
Weight	3.97lb
<b>Environment</b>	
Operating temperature	-41°F~104°F
Storage temperature	-4°F ~140°F
Relative humidity	≤90%
<b>Additional information</b>	
System requirements	<ul style="list-style-type: none"><li>- Mobile device running iOS8 or higher, Android™ 4.1 or higher</li><li>- Nexxt Home app</li><li>- Existing Wi-Fi network</li></ul>
Auto-off feature	The scale turns off after a 10-second interval when no activity is detected
Application	Indoor use
Warranty	Two-years

\*Battery life depends on the use frequency per day. Recommended use is 3 times a day.
