Your home  
in **one app**

## One for all!

Nexxt Solutions continues to expand its **Smart Home Automation Series**. Designed to suit your mobile lifestyle while building a safe environment inside and out of your home, the brand seamlessly unifies into one user-friendly application a comprehensive line of fully integrated devices. From smart plugs, power strips, bulbs to smart cameras and doorbells, you can now control and run your home devices on your own schedule even when you are not home.

Our IR/RF universal remote control will help you simplify your life by merging your remotes into one single application in your smart phone. Forget about misplacing or losing those slender devices that always seem so hard to find. Nexxt's new universal remote supports both IR and RF controlled devices and appliances—from TVs, streaming boxes and Blu-ray players to A/C units, fans and lights. Compatible with Alexa, Siri and Google Assistant, this universal remote will be your favorite home entertainment partner.

## Highlights

- Control multiple remotes with a single smart controller\*
- Its self-learning technology allows it to detect the codes of your original remotes automatically
- Easy pairing with dozens of devices and appliances
- Works with voice control through Alexa, Siri and Google Assistant
- Supports an IR frequency of 38kHz
- Supports an RF frequency of 315/433MHz
- Create schedules to turn on and off your connected devices
- Easy to share access with friends and family
