Your home
in **one app**

Control your lights, no matter where you are

Nexxt Solutions introduces its new **Smart Home Automation Series**. Designed to suit your mobile lifestyle while building a safe environment inside and out of your home, the brand seamlessly unifies into one user-friendly application a comprehensive line of fully integrated devices. From smart plugs, power strips, bulbs and cameras to security kits, you can now take control and run your home devices, on your own schedule even when you are not home.

With our **Smart Wi-Fi LED bulb** you can easily bring life to your room or set the mood directly from your smart device. Remotely turn your lights on and off from anywhere via the Nexxt Solutions Home app. By adopting the **CCT (Correlated Color Temperature)** technology, users can now create the right ambiance with virtually all shades of white, from bright and invigorating to a smooth and inviting type of light.

Highlights

- Easy pairing
- Nexxt Solutions Home app
- Voice activated (Alexa, Google Assistant and Siri)
- iOS and Android™ compatible app
- CCT technology simulates natural light patterns so you can enjoy optimal illumination any time of day
- Create engaging spaces– choose a vibrant daylight color to stay focused or a calm, soft light when it's time to relax
- Full-tunable color temperature scale -from warm all the way to cool white light
- Schedule your preferred time to turn on, brighten or dim your lights, at the touch of a button
- The brightness of every hue of white is dimmable
- Up to 85% more energy efficient than conventional incandescent bulbs
- Share access
