Your home  
in one app

## Stay connected, keep them safe with a little Disney magic.

Parenting is no small task, but keeping an eye on your little one just got a whole lot easier—and a lot more fun! Meet the Stitch PTZ Baby monitor, where Disney charm meets cutting-edge technology. Designed for busy parents like you, this monitor lets you see every detail in stunning 2K resolution, hear every coo, and even talk back to your baby with two-way audio.

Whether you're at work, running errands, or relaxing in the next room, stay connected with motion alerts, crying detection, and real-time notifications for changes in temperature and humidity. Need to soothe your baby? Use the app to play lullabies, turn on the soft night light, or set meal reminders. With flexible storage options and a privacy mode for added security, this baby monitor is the ultimate tool for modern parents. All that wrapped up in a delightful Stitch design your child will adore! Because even superheroes need a little help sometimes.

## Highlights

- Adorable Stitch design: Combines the fun of Disney's Stitch with advanced technology, making it a charming addition to your baby's room.
- PTZ Camera for full coverage: Pan, tilt, and zoom to keep an eye on every corner of the room.
- Crystal-clear 2K resolution: Enjoy impressive image quality and true-to-life color accuracy, even in the dark, with night vision up to 10 m.
- Stay connected, anytime, anywhere: Dual-band 2.4/5.0GHz Wi-Fi® ensures a stable connection for remote viewing on your iOS or Android™ device. \*
- Two-way audio: Hear and talk to your baby from wherever you are for added peace of mind.
- Smart alerts: Get notified instantly when the camera detects motion, crying, or changes in temperature and humidity.
- Convenient extras: Set meal reminders, play soothing lullabies, or control the gentle night light—all from the app.
- Flexible storage options: Choose between local storage with a microSD™ card (up to 128GB) \* or expand capacity with a cloud subscription.
- Privacy mode: Easily disable the camera when you want to ensure total privacy.

\* Smartphone and microSD™ card not included
