Your home
in **one app**

Home security in your pocket.

Being able to neatly monitor and record any potential security event, around the clock and from anywhere, has become crucial to build a safe home environment nowadays. That's precisely what the new, upgraded smart Wi-Fi camera from Nexxt Home automation series can offer.

Made for the outdoors, this versatile smart camera keeps a watchful eye on the most sensitive areas around home 24/7, even under extreme weather conditions. Simply plug it into any AC outlet and connect it to your existing Wi-Fi network, no hub required. It streams live video directly to your smartphone in full 2K+ resolution and allows two-way conversations remotely through the Nexxt Home app. Equipped with night vision, motion detection and human body filter technologies, this smart device will give you the peace of mind you need to protect the most valuable things in life.

Highlights

- Features full 2K+ resolution for sharp live stream and video playback.
- With an IP65 weatherproof rating and a sturdy housing made of metal and ABC plastic, it is ideal for outdoor installation.
- The combination of 4-mm lens and 107° viewing angle offer a more complete scrutiny of any space, by allowing more clarity at a farther distance.
- Advanced motion detection and IR LEDs for night vision, both with an effective range of up to 33 ft.
- Human body detection technology, to prompt notifications and trigger recording only when needed.
- No hub required.
- Cloud-ready. You can record, upload, and share every recorded event instantly, with just one click.
- Supports local storage through a microSD™ card of up to 128 GB*.
- ONVIF®-compatible for added versatility.
- Supports two-way audio between phone and camera.
- RJ45 port.
- Free app provided, supports remote viewing on iOS or Android™.
