Turn any device into a smart device

Nexxt Solutions introduces its new **Smart Home Automation Series**. Designed to suit your mobile lifestyle while building a safe environment inside and out of your home, the brand seamlessly unifies into one user-friendly application a comprehensive line of fully integrated devices. From smart plugs, power strips, bulbs and cameras to security kits, you can now take control and run your home devices, on your own schedule even when you are not home.

Our **Smart Wi-Fi dual plug** is the easiest way to make your current electronics smart. Simply plug it into any AC outlet and connect it to your existing wireless network, no hub required. Remotely turn your lights and appliances on and off from anywhere via the Nexxt Solutions Home app. Its voice activation feature makes it compatible with Google Assistant and Amazon Alexa for hands-free management of all linked devices. You can have peace of mind by checking the real-time status of any appliance at any time, save energy by running your house on your schedule, while providing a higher sense of security by making it appear that you are home even though you are half way around the world.
