Blank panel kit
19in | 1U

NPP-B1UB5

Our blank panel is designed to fill the open spaces left unused on a standard EIA 19-inch rack or enclosure. Constructed of cold-rolled steel with black powder coated finish, this metal filler panel provides the protection your valuable networking equipment needs. One of the most important accessories for airflow management, the blank panel works as a seal to prevent hot air recirculation between rack units, while providing a clean, finished look to your installation. Each pack contains 5 panels.

- 1U blank panel kit compatible with standard 19in server racks and enclosures
- Includes 5 panels for covering up to 5 empty RU spaces
- By covering unused rack spaces, blank panels maximize airflow and cooling efficiency inside the enclosure
- Energy-saving solution for cabinets, smart data centers, and telecommunication rooms
- Convenient, it holds the space until further expansion is needed
- Meets ANSI/TIA/EIA 568.C.2 and ISO 9001 industry standards

Blank panel kit
19in | 1U

Product specifications

Blank panel characteristics	
Material	Solid 16-gauge steel
Panel color	Black varnish paint (RAL 9005)
Effective U space	1U
Mounting type	19in horizontal rack mount
Dimensions	
Height	3.9in
Width	19in
Depth	1.6in
Weight	055lb
Includes	Mounting hardware
Certifications and standards	
International standards	ANSI/TIA/EIA 568.C.2; ISO 9001
Certifications	CE, ROHS
Miscellaneous	
MPN	NPP-B1UB5
UPC	798302036680
Labeling	Nexxt Solutions
Packaging	Carton box
Cu.ft.	495x55x20mm
Warranty	5-year limited warranty*
