

Success story Peru

Secram ingenieros - Universidad nacional de ingenieria - fieecs

The UNI is leader in the formation of high-quality professionals at the service of the country. The graduate School of the University of Economic Engineering, Statistics and Social Sciences (UPG-FIEECS) has the important mission of preparing professionals to serve as executives in state management.

Challenge

Implementation of a structured cabling network for the newly built offices. The purpose in this new stage was to design and install a technological infrastructure which allows growth for the high performance of future applications in data transmission.

Requirements

- Installation of a structured cabling solution with Cat. 6A S/FTP cable consisting of 4-pair 23 AWG, LSZH type wires.
- Data transmission of 10G at a bandwidth range of 500 MHz.
- Compliance of the ANSI/TIA-568-C, Intertek's ETL certificate to 3 connectors in channel.

"Nexxt Solutions nos ofrece la mejor confianza y soporte tanto técnico como comercial y sobre todo cumple con los estándares de calidad correspondiente.

Ignacio Giraldo – SECRAM Ingenieros"

Solution

SECRAM S.A.C. implemented a Category 6A shielded solution, which also included patch panels, stranded patch cords, RJ-45 jacks and face plates. All Nexxt Solutions products, ETL and UL Certificates.

Nexxt Solutions

A leading manufacturer of one of the most comprehensive lines of infrastructure, connectivity and surveillance products, with more than 15 years in the industry. Nexxt Solutions is a member of ACCVENT Group, headquartered in Miami, Florida.
